They Say

Excuses are not necessary.

Except you are guilty.

Only the guilty ones will try and hide their rascality.

It is only a question of time before he will be overtaken.

Who is the boss stool pigeon?

When you hear him say that he is greater than his superiors, jus put it down that he is an egotist.

Who is a greater enemy to his race than the man that declares that all negroes are thieves.

If his record was shown he could not look at himself.

People who take things to themselves must be guilty of some offence.

Time will tell what he thinks people do not know.

Some people believe that they have a faculty of placing a blind over your eyes.

Watch the animal that shows his teeth and gums.

He thinks himself smart when he is grinning in the faces of the negroes enemies.

If there is a change in the county trusteeship a moral man will be appointed like the one we have.

Col. Ross will see to it that no libertine is appointed on the school board.

Mrs. Jesse Lawson or Mrs. Dr. Richardson would make good female trustees.

Superintendent Cook is a modest and sedate man.

The people demand a change in the presidency of Howard University.

There should be a colored man president.

Why not make James M. Gregory president of Howard University.

What is greatly needed is a man at the head of Howard University who knows the wants of the people.

Why should Gregory have been removed from Howard University.

There is just as bad a sentiment in this city against the negro as there is in the south.

Edmunds law only applied to the negro.

The moment an attempt was made to apply it to the white people all the courts decided that it would not do.

The moment the BEE said that it was in possession of facts concerning white people who would come under the Edmunds law, the Judges called a halt.

Billie Williams is a dandy.

The next convention is one year off.

This doesn't prevent the boys from calling for aid.

Some of the friends of candidates have been bled already.

Don't be alarmed when you hear a pistol shot.

It is a signal that the enemy is around.

The public schools are in a good condition.

C. H. J. Taylor has a candidate for school trustee.

He will be appointed next spring.

When Congress convenes there will be a shaking up of bones.

Get rid of the old school of politicians.

Suffragists should be sent to the next republican convention.

Bob Keys has a host of friends.

You can depend on him.

One story is good until another is told.

SIDE TALK TO GIRLS.

If a young man has a stronger feeling for a girl than that of mere friendship he will certainly make an effort to see her and tell her all of his wishes.

When a woman allows a man to adopt such an easy and free handed way with her he cannot have but a very little respect for her.

It is not in good taste for a young lady to receive her men friends when she is wearing a tea gown. Teagowns are usually dedicated to matrons.

One hears a great deal of complaint among men nowadays that girls accept courtesies altogether too much as due them. Whatever comes to us in the way of attention be it ever so small we should not fail to acknowledge it.

Nothing will more thoroughly stultify the spirit of gallantry in our young men as an indifferent reception of their courtesies or attention at the hands of young women.

THE REMOVAL OF GREGORY.

ONE OF THE BEST NEGRO EDUCATORS REMOVED. WHAT IS THE CAUSE.

Prof. James M. Gregory is no doubt one of the best and most learned negro educators in this country. He was made one of the professors of Howard University long before Dr. Rankin thought of coming to the institution.

It was through the laborious efforts of Prof. Gregory that Dr. Rankin was elected president of Howard University and indeed Prof. Gregory was warned at the time not to touch him. Had Prof. Gregory knew then what he knows now Dr. Rankin never would have been made president of this Negro institute. The report is that Dr. Rankin is responsible for the removal of Prof. Gregory.

The grounds upon which he was removed were that the institution wanted money to pay off certain indebtness and to do that it would be necessary to abolish one of the professorships.

Out of the great number of professorships, the president and a few trustees who hold with him didn't think it advisable to remove a white professor in a negro institution, but, did think it necessary to remove the head professor by abolishing his office.

The question that is now agitating the mind of the people in this city is, will the colored press in this country allow such acts to go unnoticed without a protest.

There is a movement on foot to call a national convention of colored men for the purpose of taking some action looking to the appointment of a colored man president of Howard University.

DON'T WORRY.

Worry annually kills more people than work, for worry fatigues the nerves; but it is useless to tell people of nervous temperaments not to worry. One should strive, however, to avoid all things that tend to disturb the nerves. Throw away a pen that scratches and a pencil that has a bit of hard lead in it. Discard a needle that "squeaks," and a basin that leaks. Use sharp tools, and wear soft garments. Oil the hinges of the rhuematic door and fasten the creaking blind. Have your neighbor's dog quietly "anæsthetized" into another and better world, for the law will shield the nervous man from the irritating nuisance of a barking dog. These may seem but trifles; but such trifles irritate the nerves as much as a piece of woolen does a raw sore Charles Lamb. that quiet, inoffensive man, said that a carpenter's hammer in a warm summer noon would fret him into more than a midsummer madness.—From "Nervousness: How to avoid it," in Demorest's Magazine for May.

SIMPLIFIED ELOCUTION.

A new book, bearing the above title, by Edwin Gordon Lawrence, teacher of elocution and director of the Lawrence School of Acting, has just been issued. Simplified Elocution is a comprehensive system of vocal and physical gymnastics; it contains explicit instructions for the cultivation of the speaking voice and gesture; directions for the production of breath, sound and speech, and a thorough explanation of the muscles and organs employed: rules for articulation, modulation, emphasis and delivery: postures and movements of the feet, body, arms, head, eyes, etc.

To the treatise is added a Complete Speaker, consisting of selections in poetry and prose suitable for recitation, which, as the author says in his introduction, "are not chosen on account of their newness, but from their intrinsic merit and their Adaptability as exercise."

The work is designed for the especial use of teachers, actors, students, colleges, schools and all those who wish to perfect themselves in the noble art of expression.

The book which contains 232 pages, is handsomely bound in cloth and gold, and will be sent securely packed on receipt of $1.00, postage free. [New York: published by the author, 106 West 42d Street.]

CRASHED INTO A TROLLEY CAR.

A Baltimore and Ohio Train Runs Into a Car Crossing Its Track.

Pittsburg, Feb. 18.—At 10 o'clock last night the Eastern express on the Baltimore and Ohio Railroad ran into a Second Avenue traction car at the street crossing at Rankin station, killing Anna Kosak, a Slav girl, aged eighteen; crushing the arm and foot of William Johns, of City Farms, seriously injuring three other passengers, and smashing the car to pieces. The street car conductor, John McGhan, saw the express coming, and shouted to his passengers to jump out the rear door. As many as possible did so, and in this way several lives were saved.

BOY INCENDIARIES.

A Gang of Them Terrorizing Elizabeth, N. J.

Elizabeth, N. J., Feb. 19.—The police arrested Frederick King, a boy of thirteen, last night for setting fire to Cook Hall's stable and Ogden's furniture warehouse on Sunday. The boy confessed and said he started the fire to see the engines run. The boy robbed Mrs. Ogden's house some time ago. He has confederates, who are responsible for many fires, the most recent being the Post-Office on Friday night last, when $8,000 damage was done.

FATAL RAILROAD WRECK.

One Killed, Two Fatally Injured and Eighteen Hurt.

Guthrie, O. T., Feb. 18.—Through a misunderstanding of orders, the southbound Galveston express on the Atchison, Topeko and Santa Fe Railroad, heavily loaded with day excursionists, and a north-bound live stock "extra" collided while rounding a curve five miles south of Guthrie. Engineer Charles Appleby was instantly killed, two others were fatally injured and eighteen received serious wounds.

Boston Motormen's Novel Idea.

Boston, Feb. 18.—The drivers and motormen of the West End Street Railway have decided not to accept the compromise proposition of the management of the road, but to adhere to the original demand of $2.50 per day. The point of attack has been changed, however, and instead of a tie-up of the West End system there is to be a legislative fight begun, which is expected to restrict the employment of inexperienced men on the cars of the company.

$15,000 Fire in Amsterdam.

Amsterdam, Feb. 19.—A fire occurred between 11 and 12 o'clock last night in the harness shop of W. P. Clowes, on Bridge street. The building, together with the Hooker Hotel adjoining, was destroyed. The hotel was run by Horatio Claus. W. P. Clowes, in whose shop the fire occurred, had to be dragged out, nearly suffocated. The loss will amount to about $15,000.

Washed Ashore From the Elbe Wreck.

London, Feb. 18.—The body of Wilhelm Murst, a fireman on the steamship Elbe, was washed ashore at Deal yesterday. A lifebelt was fastened to it. An Elbe mail bag was found near by. The seal, which was intact, bore the mark, "Newspapers, Bremen for Chicago." Two oars and several lifebelts from the Elbe came ashore about two miles from Deal.

Asphyxiated.

Brooklyn, N. Y., Feb. 18.—Henry Knoope, aged eighteen years, and Henry Selmis, aged twenty, residents of Hoboken, N. J., were found dead in Miller's Hotel, Williamsburg. Death was due to asphyxiation. The police are inclined to believe that the boys committed suicide.

La Gascogne Ready.

New York, Feb. 18.—The new piston has been placed in position on the French line steamer La Gascogne and the ship's chief engineer, Eugene Martin, states that everything is ready for the steamer to resume her regular trips on Wednesday next.

The Latest Trust.

Pittsburg, Pa., Feb. 18.—The Pittsburg Plate Company, the name under which the plate glass combine will operate, will commence business in Pittsburg about April 1. The company will have a capital of $10,000,000. Prices will be advanced immediately about 106 per cent.

Church Incorporated.

A certificate of incorporation of the Church of St. Vincent de Paul of Albany was filed yesterday. The trustees are Thomas M. A. Burke, Bishop; John J. Swift, John J. Hanlon, rector; Valentine Magin, John C. Upton.

A Handsome Estate.

Baltimore, Feb. 18.—The inventory of the estate of the late William T. Walters shows the value of the personal estate is $4,537,000. The famous picture gallery is scheduled at $188,000.

Sunny Skies Obscured.

Rome, Feb. 18.—A heavy snow has fallen throughout central Italy. Three trains which left Ancona for Rome were able to proceed but forty miles. They have been fast in the snowdrifts near Fabriano.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL
AND PHOSPHATES OF
LIME, SODA, IRON.
The truly wonderful effect produced by Dr. Alexander B. Wilbor's Compound of Pure Cod-Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day. Consumption, coughs, colds, asthma, debility, wasting diseases and all scrofulous humors disappear under its influence. It is almost as palatable as cream, it can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and appetite, builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, in fact, rejuvenates the whole system, flesh, blood, nerve, brain. This preparation is far superior to all other preparations of cod-liver oil; it has many imitators, but no equals. The results following its use are its best recommendations. Be sure, as you value your health, and get the genuine. Manufactured only by Dr. ALEXANDER B. WILBOR, Chemist, Boston, Mass.

OUR DELEGATES.

The most amusing thing that is now going on among the local politicians is the attempt on the part of some to start a campaign for the election of delegates to the next National republican convention.

There are no end to candidates and what is most amusing is the razzle dazzle that some of the local leaders is giving to some of the would be candidates.

These local heelers give it out that they have the pull and if anybody wants to go they must be consulted.

Some local republicans have become demoralized at the manner in things have been managed in this city.

What is needed is a re-organization of the republican party in this city.

The BEE favors primary elections which will enable all local republicans to come out and take a part in the meeting.

OUR SCHOOLS.

The Commissioners will not appoint men trustees of the public schools who are circulating petitions in their own interest.

Certainly, there is no salary attached to the position and why they make such efforts to be appointed is a question that the Commissioners will investigate.

The present members of the school board have given entire satisfaction and the BEE as well as the people are quite satisfied.

Again the Commissioners will not appoint men on the school board who don't work in harmony with our superintendent.

Mr. Cook is a gentleman above reproach and a very industrious officer. The schools have never been in a better condition than they are at this time.

DON'T BE ALARMED.

GovernorMcKinley is growing in popular favor day by day and no doubt he will be the next republican nominee. If McKinley is nominated no doubt he will be elected by a large majority.

There is no difference between Gov. McKinley and Ex-Governor Foraker.

It is understood that both gentlemen have had a thorough understanding and the entire Ohio delegation will go to the convention in the interest of Governor McKinley.

OUR GOVERNMENT.

is the general opinion of the people of this city that the present form of government in the District of Columbia is a failure.

The people have no more power to enforce the rights of citizenship than the helpless negroes in the south.

There is no more difference in this city so far as the rights of the negroes are concerned than there is in the south. The courts in the south give the negroes just as fair a trial as they receive in this city. The scales of justice are against the negro and what they can expect time alone can only tell.

We can hope for better days when the affairs of the government change.

Let the negroes unite against the common enemy.

The enemies of the negroes are in the church as well as they are in the government.

The *Daily Post* asserts that there is not in need of leadorship. The race is just as much in need of a leader as any other nationality.

MCKINLEY FOR PRESIDENT

The Bee and its editor will support the nomination of Hon Wm McKinley, Jr of Ohio for President of the United States Governor McKinley is not only the man for the place but he deserves the nomination and if ominated he will be elected. He is a broad minded man and true to his country.

There is no doubt that Governor McKinley will be nominated, the "signs of the times" points to this brave defender hts and liberties of the people irrespective of color or condition. Governor McKinley is honest sincere and a patriotic citizan.

If there are any in doubt, they had better dispel such and join the band wagon, as the watchword is McKinley and protection to our American industries

ELECTION OF DELEGATES

What the republicans will demand from the national committee will be the election of delegates from this city to the next national convention in a different manner from heretofore. There should be primary elections, thus enabling all honest working republicans to vote for their choice as delegates to the district convention.

This demand well be made on the national committee when it convenes in this city next winter.

Men who claim that they can be elected can certainly have an opportunity of testing their strength.

HENRY E. TILMAN.

Henry E. Tilman, a resident of this city and from one of the oldest and most respectable families, committed suicide in New York last Friday week. He was employed at the office of the Mail and Express and living at 320 West 37th street.

Henry was a jolly fellow, kind and generous.

The cause of the suicide was that he was out of employment and yet was not in need at the time of his death.

He leaves a wife and child, father and mother and several sisters, Mrs Anna Thomas, Amelia and Ruth Tilman.

He was burried from the residence of his parents in this city.

Let there be a large attendance at the Press meeting to be held in Baltimore, Md., next week.

The Sanfrancisco Elevator is next to the oldest paper edited by negroes in this country.

The Christian Recorder is the oldest.

An officers word in the police court outweighs anything a respectable citizen may say.

There is as much prejudice in the District of Columbia courts as there is any where in the South.

Editor John C. Dancy has not issued any call for a meeting of the press convention. Why he has failed the BEE is unable to state. Several communications have been addressed to him but as yet no answer has been received.

The negroes in this city will never exercise the rights of citizenship until the rights of suffrage is restored in this city.

It is hoped that the people will unite on the suffrage question.

Some newspapers would like it to be known as having a national reputation, but they have not the sand.

Mr. Lipscomb thinks that the police department is blind.

Why not have a colored Judge?

CONTINGENT FEE THAT FAILED.

Ex-Judge Refused a $5,000 Settlement and Now Must Pay $600 Costs.

New York, June 24. — Ex-Judge Thomas F. Noonan, of Jersey City, some time ago took on speculation a suit of Vincent M. Flanagan to recover $10,000 from the North Hudson County Railway Company for damages received in an accident. Flanagan was then eleven years old. The company compromised with the boy's parents by agreeing to pay for his education and maintenance until he should be old enough to work and then to get him a place. The latter part of the agreement was not kept, and Judge Noonan began the suit. The latter refused the company's offer to compromise the suit for $5,000, and got a verdict for $6,000. The case was appealed, and now the verdict has been set aside by the Court of Errors. As Flanagan has no money, ex-Judge Noonan, who became responsible for the costs, will be out of pocket about $600.

LYNCHED THE PREACHER.

The Way Southern Negroes Served Gaya Lotharlo.

Little Rock, Ark., June 24.—A shooting apray at Portland, Ark., has resulted in the fatal wounding of one of the participants and the lynching of the other. Rev. Frank King, colored, became infatuated with Deacon William Toney's wife and trouble arose between the men. When they met on the street the preacher pulled a pistol and shot the deacon in the abdomen. King was locked up, and after dark a mob of infuriated negroes repaired to the lockup, took the preacher to a tree and lynched him.

Bogus Bonds Afloat.

Los Angeles, Cal., June 24.—Forty thousand dollars worth of securities, purporting to be backed by the credit of this city, now being peddled among some of the leading financial houses of the East, are pronounced to be forgeries. The bonds purport to be power and public improvement bonds, bearing interest at 10 per cent.

INDIANS TO DANCE.

The Crows to Hold Their Great Reunion Next Week.

Omaha, Neb., June 24.—Great preparations are being made by the Indians of the Crow reservation for a reunion of all the tribes in the Northwest on July 4 and 5. At least 5,000 Indians are expected to take part in the celeof the rtanoib shrdlu cmwfyp hrdluuu bration of the nation's birth. For several years past the Crow Indians have been holding their annual reunion on the 4th. The War Department has intimated that the great gathering of the red men on the national day, even though for the purpose of celebrating the independence of the United States, is not conducive to the betterment of their conditions. The Indians, learning of the opposition to the Great Father, are gathering in large numbers for July 4, believing that this may be their last opportunity to get together and enjoy themselves in their own way, and so they are going to make a demonstration, indulging in the barbaric and semi-religious dances and generally enjoying themselves. It will be one of the most interesting gatherings held in years, and great preparations art being made by the Crows to take care of their brethren, not only of Pine Ridge ageney, but of all the others throughout the Northwest.

COLOMBIAN REBELS.

The Government Forces Meet With Another Defeat.

Colon, Colombia, June 24.—The Government is doing all that is possible to suppress news from the interior, but it is known that the Government forces near Baranquila have met another crushing defeat at the hands of the rebels, who are daily gaining strength. Three hundred men ,all well armed, crossed into this country from Venezuela and joined the rebels, and are now depredating on this side of the line. The Government is keeping a strict watch over all outgoing news, and the police are keeping a lookout for two prominent leaders of the rebels who are reported to be on their way here.

The war between the Panama Railroad Company and the Pacific Mail Steamship Company is crippling trade with the United States, for many purchases formerly made in that country are being placed in European markets on account of cheaper freights.

A report is current here that a rebel force is preparing to advance on Bogota, the capital, and the police of the city have made a number of arrests of persons accused of being implicated in a conspiracy to seize President Caro and carry him into the enemy's lines as a hostage.

BRIDAL OUTFIT IN A CARPET BAG

The Eccentric Brown and the late Miss Coxey on a Tour

Massillon, Ohio, June 24.—Bridegroom Brown is proceeding to Washington, and expects to be the central figure in the re-union of the Commonweal. He was obliged to borrow twenty-five cents to get as far as Canton. A probate judge provided him with the marriage license for which no fee was paid, and an easy-going justice tied the knot on the same terms. The bride nee Coxey, travels from town to town in street attire, with her bridal outfit in her carpet bag. This trousseau was secured by Browne through an obliging acquaintance. Browne's programme is to deliver daily speeches while his wife sells "Reform literature." He has droopped Coxey's theories and after devoting a year to proclaiming them now ridicules them.

HORRIBLE MURDER.

A Texas Man Shoots a New York Man While Swimming.

Montgomery, Texas, June 24.—A horrible murder has been committed by Emmitt Chester, a young farmer living five miles from here. Chester had accused G. F. Wilson with being intimate with his (Chester's) stepdaughter. Wilson had been in swimming, and while he was dressing Chester came up with a shotgun and shot at him, but missed him. Wilson began running, while Chester continued shooting. Wilson ran into the water, where Chester shot and killed him. The body sank. Chester went in, found Wilson's body and cut his throat and stabbed him in several places. Chester is still at large. Wilson was a newcomer and claimed to be a son of G. F. Wilson, of New York.

HAWAIIAN EXILES.

There Is Much Anxiety Among the Colony in Chicago.

Chicago, Ill., June 24. — A Times-Herald special from San Francisco says: For several weeks there has been much anxiety among the colony of Hawaiian exiles here. Small groups are seen in earnest consultation. Yesterday Hawaiian Concul Wilder reported the secret o fthis activity, which is the organization of a new filibustering expedition to carry 1,000 picked men and alarge supply of arms and ammunition to Hawaii. Wilder is skeptical of the real strength of the expedition, but still he admits the exiles here are desperate men, and that they have strong financial backing.

Entombed Eight Months.

Shamokin ,Pa., June 25.—The remains of George Brown and Anthony Grujiniskie have been found in the Luke Fideler mine. They had been entombed since last October, when a fire in the mine killed five men and scourged the mine so that it was flooded.

Two Cities to Be Annexed.

White Plains, N. Y., June 24.—The argument on the constitutionality of the annexing of Westchester and Williams Bridge to the city of New York is being heard by Judge Dykman in the Supreme Court at this place to-day.

Gluttony Caused His Death.

Buffalo, N. Y., June 24. — Thomas Melville, a "scooper," in his eagerness to satisfy his hunger, swallowed an unmasticated piece of beef at the Salvation Army ark this morning and choked to death.

A LIBERAL ORGAN OFFER.

That there has been a revolution in the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufacturers of Washington, N. J. For the next 60 days they offer to sell an organ or $42.50, which a short time ago would have been considered a desirable bargain at $75.00. With this they offer terms of credit that are sure to meet with the approval of every fair-minded person. Cornish & Co. are the largest makers of Pianos and Organs in the world selling direct from the factory to the home. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of selling instruments through agents and dealers, their plan being to give the enormous profits usually retained by the tradesman to the buyer. Their efforts to place first class instruments within the reach of all, at manufacturer's prices and the most liberal terms, deserves the highest commendation. Every one who is contemplating the purchase of an Organ or Piano, should get the catalogue issued by this firm. It illustrates and describes all the latest and best designs of Organs and Pianos with prices and special offers that are sure to prove profitable. They generally offer to send to it free to all who write and mention the BEE.

NEW ARMY UNIFORMS.

Dress Costly and Less Military Than the Old Style.

The new blouse is very simple in design; in cut and general shape much the same as that now in use, but braided only on "the front edges, the bottom, the collar, and on each side" where there is a "vertical opening on each hip."

The letters U. S. in gold and the distinctive insignia of the branch of service to which the officer belongs will be attached to the collar, the present forage cap ornament being worn for that purpose — ornamentation of an illustrated reading matter kind. The sword-belt will be worn under the garment as at present, the sword hook passing through the vertical opening on the left side, except in field service, when it will be worn outside the blouse, the revolver, as is the custom in our service, being carried in a holster on the right side of the belt. It would seem that the main advantage possessed by the new blouse over the coat now in use lies in its reduced cost, owing to the suppression of the ornamental braid on breast and sleeves.

The present forage-cap is not a very practical or comfortable head-covering, but it has a certain jaunty military air entirely lacking in that to be worn in the army after January 1, 1896, unless a kind Providence causes a change to come over the minds of the gentlemen having in charge the regulations governing the clothing of Uncle Sam's soldiers.

Made of dark blue cloth, three and one-quarter inches high, this cap has a black mohair "band one and a half inches wide, with projecting welts, a visor of black patent-leather," and is in shape a cross between the cap of a sleeping-car porter and that now worn by naval officers. You may see something like it every day on the heads of so many bicycle riders, and it requires no great stretch of fancy to picture the eager glee of a street urchin inquiring of some honest fellow, in town "on pass' and doomed by department order to wear this most unmartial looking head-piece, what had happened to his wheel, or whether he had "bust his tire." While comfort and practicability are the main things to be considered in all military dress and equipment, it seems obvious that due regard for attractive and soldiery appearance should not be lost sight of.—Harper's Weekly.

A Historic Name.

Dobbs Ferry, which was the scene a year ago, on June 13, of a revolutionary celebration, deserves honor as a place which is satisfied with its ancient and unpretentious name. It successfully resisted, some years ago, an attempt to fasten upon it some more sonorous and grandiloquent appellation, and probably it will go down safely to history not as Ardennes or Villiffranca or Cosmopolis, but under the name by which Washington knew it when he had his headquarters there. It is not even Dobbs Ferry-on-Hudson, which is another blessing. Since one spot after another occupied by the great military leader of the revolution as his headquarters has been marked by a memorial, Dobbs Ferry has been justified in placing a monument hard by the old Livingston Manor House. When the pedestal, of which the base stone has been laid, is complete, it will record that there Washington planned the Yorktown campaign; that there he arranged with Carleton for the British evacuation of this country; that in the river opposite it a British sloop of war fired a salute in his honor. It will also bear the names both of Washington and Rochambeau, and at some future day it may be surmounted by a statue of the French officer. We can never overdo the expression of public gratitude to the founders of the America of to-day. Each new occasion for paying them honors is to be valued and cherished as freshly kindling the fires of patriotism.

Scenery in the Behring Sea.

Sailing southwesterly along the shore of that haunt of the walrus and polar bear, St. Matthew's Island, in the Behring sea, said a navigator of those waters, one is impressed by the mingling of the grotesque and the terrible in the character of the scenery. The northwest point of the island is split up into a collection of large rocks of most fantastic shapes. Houses, spires, cathedrals and figures of men and beasts are some of the forms assumed by these volcanic fragments, which, rising above the white, seething foam of the sea that breaks against the base, give a wierd aspect to the grim and desolate region. One rock resembling a large saddle suggested to me the thought that some antediluvian giant might in his time have straddled it, and, perhaps fished for reptilians over the beetling cliffs which it surmounts.

A Novel Letter Box.

In Vienna a novel letter box has been introduced, the main point of difference being the absence of a key to unlock it. When the collecting bag is slid into the groove at the bottom of the letter box the latter opens and drops its contents into the bag. But one motion is required for the operation instead of the usual cumbersome series of movements necessary to unlock an ordinary box and take out the letters by hand in bunches. No other instrument can open the box, as the groove is of a peculiar shape and will not admit of anything else. Combinations of locks may be arranged for certain routes or districts, and the system is said to be looked upon with favor.

A Weather Test.

A means of forecasting the weather from a morning cup of coffee is given the Leeds Mercury, which asserts that it has proved more trustworthy than the official guesses. Drop two lumps of sugar carefully into the middle of the cup; if the air bubbles remain in the centre of the cup, it will be fine; if they rise rapidly and go at once to the sides, it will rain all day; if they gather in the centre and then go in a cluster to one side, look out for showers.

A GALLOWAY FLAIL.

The Awful Weapon Used by Scotchmen in Old Times.

The Gallovidians of old had a remarkable war weapon known as the Galloway flail. It seems to have been indigenous to this corner of Scotland, and in the traditions of the province it occupies a prominent place. The tide of battle has been turned on more than one occasion by the skillful manipulation of the Galloway flail. The handstaff was a tough ash sapling about five feet in length, and the scople, the part for striking the barn floor when threshing, was made of iron, about four feet long, with three joints, equi-distant from each other. No swordsman could withstand attack with the flail. One stroke would shiver the sword to pieces and leave the unfortunate individual at the mercy of his opponent. Then the scople with its iron joints would encircle its victim and crush him just as a boa-constrictor would.

An American Speciality.

Ice cream is cheaper in Europe than in America, but that sold in the saloons usually lacks the indefinable qualities that make it so attractive at home. A varied and recent experience with the ice creams of Europe induces the conclusion that only the "sorbetto" one gets on the Piazza of St. Marks in Venice approaches the delicious perfection of the ordinary every-day ice cream of America. Perhaps this is because the Venetians themselves eat ice cream, whereas in most other European cities it is regarded as an outlandish concoction, prepared onl yfor the peculiar palate of the stranger. One occasionally finds a soda fountain in Europe, but the soda water, like the ice cream, is unsatisfactory. It is like that found in many of our own country towns; the drink is either froth without flavor, or flavor without fizz, or lukewarm, or something else equally disappointing. To be sure there are other drinks to be had. In England there are the peppery ginger ale, bottled lemonade, and various mineral waters, while on the Continent there is the everlasting sherbit. In Italy and other countries countries one can get perhaps half a dozen different fruit syrups, which are served in small quantities in large glasses, the water filling up the glass from the water bottle. The country folks of the north make various sorts of light beers from roots and herbs, but these cannot be had at public places in cities, as birch beer, root beer, sarsaparilla, and the like can be had in the United States. It must be remembered, however, that no other people on earth so persistently drench themselves with drinks, in all seasons and at all hours, as do Americans. Anything like the scene at a big soda fountain in any American town on a summer's day, is not to be found in any other country.

Honey as Food.

Honey has been known from the earliest times. The Scripture makes mention of it, and pagan writers celebrate its virtues. It was called "the milk of the aged," and was thought to prolong life. Honey was also used in the embalming of the body after death. This food, as useful as it is delicious, was esteemed most highly by the Greeks, who celebrated its virtues alike in prose and verse, so that the fame of Attic honey has been transmitted unimpaired to our own day. Used in all kinds of pastry, cake and ragouts, it was also esteemed as a sauce.

Pythagoras, in the latter portion of his life, was a vegetarian, and lived wholly on bread and honey, a diet which he recommended to his disciples. And this gentle philosopher reached the ripe old age of ninety years before he departed from life.

The true source from which honey is derived was only discovered in later years. Virgil supposed that its delicious sweetness fell from heaven upon flowers in the shape of gentle, invisible dew, a belief which he shared with Pliny and even Galen. It was left to modern observers to study with enthusiasm plant life and bee life, and learn from them some of the most wonderful lessons of nature.

Honey was often served by the ancients at the beginning of a banquet in order that the uncloyed palate enjoy to the full its exquisite flavor. It took the place that sugar occupied after the discoveries of the properties of the sugar cane, so that all conserves, cakes and beverages were dependent on honey for their sweetness. Apicius prepared it for seasoning purposes in this manner: Boil eight pounds of honey with one pint of wine, skim, add pepper, spikenard, saffron and dried dates. This mixture was kept in jars to use as occasions required.

Plight of the Pamunkeys.

A modern instance of an entire nation in search of eligible wives and husbands by the wholesale is furnished by the interesting, but little known, tribe of Pamunkey Indians, living in eastern Virginia, who are indeed literally the "first families" (F. F. V's) of the Old Dominion, being lineal descendants of the true aborigines.

So blue and exclusive is the Pamunkey blood, so unmixed through centuries with any other strain, that the tribe is dying out, and now feels the urgent need of a matrimonial alliance with some outsider stock in order to preserve the root. The detrimental effects of continued intermarriage between members of the same tribe have become alarming; but inasmuch as they scorn a union with their white as well as with their colored neighbors, they have decided upon heroic measures to restore their blood and save themselves from extinction.

Silicon Instead of Charcoal.

Men are composed chiefly of charcoal and water. As beings of this composition cannot exist in any heat great enough to set the charcoal on fire in spite of the water, the scientists are now speculating as to the possibilities of the hot stars being inhabited by animals with silicon substituted for charcoal. Silicon is sand, or at least it bears much the same relation to sand that carbon does to charcoal.

REPUBLIC OF HAWAII.

Meeting of the Legislature and the Suggestions Made.

Honolulu, via San Francisco, June 24.—The special session of the first Legislature of the republic convened at noon on the 12th instant in the former throne room.

A large assemblage was present. The only uniforms seen were thos e of United States naval officers. There was a total absence of parade.

President Dole delivered an address of fifteen minutes. He stated that the republic of Hawaii had been recognized by all the principal nations, with whom relations were friendly. Internal affairs had been in an orderly and prosperous condition, except the January insurrection, which had been suppressed without serious difficulty.

The outlay, including expenses of the military court, had been over $90,000, paid from current funds in the treasury. Annexation to the United States continued to be the policy of the government in administering the public lands, so as to facilitate the acquirement of permanent holdings by industrious persons of small means. The crown lands should the same end.

A bill would be submitted elaboratinging such a land vessel to carry on its work. It is easy for one to complain that being clay he is not gold, or being wood he is not silver. Discontent comes of wishing to be something other than he is. Content would come if each would realize the infinite wisdom of His maker the responsibility of life relative to the capacity of the liver, and the need of just such service as each can render, to accomplish God's will. Just here lies the use and value of your training time to have found out the stuff you are made of. Better than common things can be made out of common stuffs. To make the most of one's own self, and not to be like some one else, should be the desire of every man."

EXPLOSION OF STEAMER.

Many Passengers Scalded—Four of the Crew May Die.

Chicago, June 24.—The whaleback steamer Christopher Columbus met with a serious accident to her machinery on her return trip from Milwaukee on Saturday night. The wind was blowing from the south, and she was making fast time until 7 o'clock, when directly off Waukegan there was a terrible explosion, followed immediately by a flash of flame, and the boat was immediately enveloped in a cloud of steam. Many persons were terribly scalded and four of them, two firemen and two coal passers, may die.

On the arrival of the steamer at her dock at 3 o'clock yesterday morning, the injured were taken in police ambulances to St. Luke's hospital.

The cause of the accident, as explained by Engineer Webster, was that that the fitting on the main steam pipe gave away, and the accident was unavoidable and unaccountable. The boilers were tested only last week, and found to be all right. The Columbus went into commission for the season Saturday. She left on a trip to Milwaukee with 500 passengers on board, and left there on time for the return trip to this city. Everything went all right off Waukegan, when the accident took place. It is asserted by passengers that the Columbus was racing with the Virginia of the Goodrich line. As soon as the explosion took place the utmost excitement ensued among the passengers, and the captain and stewards had considerable difficulty in calming their fears. There were three physicians on board and the injured were attended to promptly.

An agent of the steamship company yesterday denied the story of a race or an intended race. Boatmen, however, say they were looking for a race betwen the rival steamers, and they fully expected a brush when the two boats got their noses together pointing a good course, such as that between Chicago and Milwaukee.

ITALIAN FLAG CAME DOWN.

It Was Floating on the American Bank of the Niagara.

Suspension Bridge, June 24.—The contractors building the new trolley line in the Gorge on the American bank of the Niagara river have brought crowds of Italian laborers here, who live in camps along the bank in shanties over which they have been floating the Italian flag very high. This has been an eyesore to some lovers of old glory, and at noon yesterday a veteran soldier named Orlando E. Wilson accompanied by four others visited one of the camps close to the city and ordered the Italian flag lowered. Italians to the number of 300 crowded about and gesticulated. "Take that flag down," said Wilson. The sons of Italy realized that the men were in earnest and complied.

BRIDAL OUTFIT IN A CARPET BAG.

The Eccentric Brown and the Late Miss Coxey on a Tour.

Massillon, Ohio, June 24.—Bridegroom Brown is proceeding to Washington, and expects to be the central figure in the re-union of the Commonweal. He was obliged to borrow twenty-five cents to get as far as Canton. A probate judge provided him with the marriage license for which no fee was paid, and an easy-going justice tied the knot on the same terms. The bride nee Coxey, travels from town to town in street attire, with her bridal outfit in her carpet bag. This trousseau was secured by Browne through an obliging acquaintance. Browne's programme is to deliver daily speeches while his wife sells "Reform literature." He has droopped Coxey's theories and after devoting a year to proclaiming them now ridicules them.

Gluttony Caused His Death.

Buffalo, N. Y., June 24. — Thomas Melville, a "scooper," in his eagerness to satisfy his hunger, swallowed an unmasticated piece of beef at the Salvation Army ark this morning and choked to death.

Two Cities to Be Annexed.

White Plains, N. Y., June 24.—The argument on the constitutionality of the annexing of Westchester and Williams Bridge to the city of New York is being heard by Judge Dykman in the Supreme Court at this place to-day.

SENATOR QUAY.

He Has One of the Hardest Fights of His Life on Hand.

Philadelphia, June 25.—That United States Senator Quay has the political fight of his life on hand is daily becoming more evident. The opposition to him is aligning some of the most powerful political influences in the State against him, and he will have opposed to him the influence of the State administration and that of the municipal leaders of Philadelphia and Pittsburg. Gov. Hastings and Mayor Warwick, of Philadelphia, have come out in opposition to Senator Quay. A dispatch from Harrisburg quotes the Governor in an interview as being a candidate for the permanent chairmanship of the coming State convention, and in favor of the re-election of Mr. Gilkeson as chairman of the State Committee in opposition to Senator Quay. Senator Quay declined last evening to discuss the situation beyond saying that if Gov. Hastings wanted to be presiding officer of the State convention he should have no opposition.

TO ENFORCE NEUTRALITY.

The Cruiser Atlanta Ordered to Sail for Cuban Waters.

Washington, June 25.—The cruiser Atlanta is under orders to leave New York harbor to-day to enforce the neutrality laws in Cuban waters. She will first stop at Port au Prince, Hayti, and when she leaves there her movements are apt to be somewhat perplexing to filibustering expeditions menacing the south coast of Cuba. After cruising as long as her coal lasts, the Atlanta will go into Santiago de Cuba and lie there until her bunkers are replenished. This new duty of the Atlanta, together with that of the Raleigh, which sailed from Key West yesterday for a cruise along the Gulf coast, indicates the determination of the Administration to give Spain no opportunity of accusing this Government of negligence. Other American warships will be sent to the Gulf of Mexico if it should be demonstrated that the Atlanta and Raleigh are unequal to the task assigned to them.

COLUMBIA WON.

She Beat Cornell by Seven Lengths—Boats Swamped.

Poughkeepsie, June 25.—Almost in the face of a stiffish wind and in water so rough that the boats of her two opponents filled and swamped, one before and the other after the finish line was passed, Columbia rowed steadily on to victory last evening in the four-mile straightaway race, in the fast time of 31 minutes and 25 seconds. Yale's best time at New London was 20:10, but under good conditions. Cornell was second, seven lengths back. Her time was 21 minutes and 46 2-5 seconds. Pennsylvania's evil luck lasted to the end. Her shell, smashed by the waves from Gov. Morton's tug last Friday and patched up till it was practically as good as new ,went down over a mile from the finish. The Cornell boat was swamped just below her own boathouse, after the race was over, by swells from the steamboats, and was fairly broken in two. Pennsylvania's shell suffered little.

Denouncing Talmage.

St. Louis, June 25.—A special from Mason City ,Ia., says that the Rev. De Witt Talmage, who is engaged to lecture at Clear Lake on next Sunday, and to which Sunday excursions are advertised to run on all railroads centring at Mason City, was roundly denounced from the Methodist and other pulpits of that city. Mr. Talmage was severely censured for allowing himself, for a monetary consideration, to be the attraction for causing many to desecrate the Sabbath.

The Czarwitch's Illness.

Berlin, June 25.—A dispatch from St. Petersburg ,via Eydtkuhnen, Prussia, on the Russian frontier, says that Prof. Leyden and Dr. Northnagel report unfavorably upon the state of the health of the Czarewitch. They believe his recovery is very doubtful and declare that he i sin no condition to risk the sea voyage, which it was suggested might benefit him.

Crispi Won't Back Down.

Rome, June 25.—In reply to radical speeches made in the Chamber of Deputies, raising the question of Signor Cavalloiti's accusations against the Prime Minister, Signor Crispi said he declined either to rebut or explain the charges. The attitude of the Prime Minister was cheered by the government majority.

Norwegian Bark Goes Down.

London, June 25.—Information has been received that the Norwegian bark Brodrene, Capt. Larsen, from Barry, April 29, for St. Johns, P. R., was abandoned at sea in a sinking condition. The captain, his wife and four of the crew were drowned. The remainder of the crew were landed at Barbadoes.

Gresham Left $51,000.

Chicago, June 25. — Mrs. Gresham, widow of the late Secretary of State, and her son Otto, appeared in Judge Kohlsaat's court with the will of the deceased, which was admitted to probate. It leaves everything to Mrs. Gresham, who is sole executrix. The estate is worth $51,000.

The Government Wins.

San Francisco, June 25.—The suit of the United States Government against the Southern Pacific Railroad Company to obtain possession of 700,000 acres of land in Ventura and Los Angeles counties, has been decided against the railroad company by the United Circuit Court of Appeals.

Ten Men Shot to Death.

Przemysl, Austrian Galicia, June 25. —A court-martial sitting here convicted twenty-six hussars of the murder of a quartermaster and three non-commissioned officers. Ten of the convicted men were sentenced to death. They were shot. The other sixteen were sentenced to life imprisonment.

Ice War in New York.

New York, June 25.—An ice war has been inaugurated in New York city. The companies, failing to agree upon a policy, have reduced the price of ice to consumers to 15 cents a hundred, delivered, which is less than the actual cost.

CONVICTS' RIOT.

The State Penitentiary at Lincoln, Neb., the Scene of an Awful Struggle.

Lincoln, Neb., June 24.—A riot occurred yesterday among the convicts of the State penitentiary. The guards had thrown open a tier of cells to let a squad of convicts out, when immediately an Italian prisoner named Scalesi dashed out, armed with a stilletto, which he had made of scrap iron, and savagely attacked a fellow-convict named Sullivan. Scalesi fought like a demon, but he was worsted by Sullivan, who is a powerful man. The Italian then turned on a negro named Howard, who escaped the blow. Scalesi lunged at Costello ,a guard, who attempted to defend himself with a stool, which was unwieldy, and the Italian cut him across the stomach, though not seriously. At this juncture all the liberated convicts and the guards joined in the melee. Every man who harbored a grudge against another took advantage of this opportunity to "get even." Three convicts attacked the Italian who extricated himself and fled. He soon ran afoul of a guard ,Dan Athen, who struck him on the head with a loaded cane, cutting a deep gash. The Italian was removed to the hospital.

HONORING THE DEAD.

The First Anniversary of the Death of President Carnot.

Paris, June 24.—In the presence of enormous crowds of people the anniversary of the death of President Carnot, who wa sassassinated at Lyons on June 24, last year, by Cesario Santo, the Anarchist, who was afterwards executed for the crime, was observed today at the Pantheon with touching ceremony. In the official cortege were President Faure, M. Challemel-Lacour, President of the French Senate, and M. Brisson, President of the French Chamber of Deputies, followed by the Cabinet Ministers, Ambassadores, Senators and Deputies. The cortege arrived at he tomb at 10:15 A. M. M. Faure, in depositing a crown upon the tomb, said: "In the name of the republic, on the day on which is renewed the mourning of the country, I lay this crown upon the tomb of President Carnot." The religious ceremony took place in the Church of La Madeleine at 11 o'clock.

ITALIAN FLAG CAME DOWN.

It Was Floating on the American Bank of the Niagara.

Suspension Bridge, June 24.—The contractors building the new trolley line in the Gorge on the American bank of the Niagara river have brought crowds of Italian laborers here, who live in camps along the bank in shanties over which they have been floating the Italian flag very high. This has been an eyesore to some lovers of old glory, and at noon yesterday a veteran soldier named Orlando E. Wilson accompanied by four others visited one of the camps close to the city and ordered the Italian flag lowered. Italians to the number of 300 crowded about and gesticulated. "Take that flag down," said Wilson. The sons of Italy realized that the men were in earnest and complied.

KERNGOOOD'S BODY.

It Has Been Disinterred and an Autopsy Will Be Made.

Baltimore, Md., June 24.—The body of Jacob S. Kerngood, which was found floating in the Niagara River at Lewiston last week and which was buried here Friday, has been disinterred and sent to the morgue, where an autopsy will probaly be made. It is said that this action is taken at the instance of an insurance company's adjustor, who is not satisfied that the badly decomposed corpse is that of Kerngood. Relatives here claim that Kerngood was insured for only $15,000 and that the last policy was taken out seven years ago.

War on the Liberals.

London, June 24.—The Central News says the opposition leaders of the House of Commons have decided to move a resolution setting forth that the House has no confidence in the Ministry. According to this statement Mr. Chamberlain has framed a resolution asking her Majesty to dismiss the present Ministers and dissolve Parliament.
